Adam Pollack 

Adam Pollack

appointments

University of Iowa, Assistant Professor, School of Earth, Environment, and Sustainability, 2026–present.
Dartmouth College, Research Scientist and Postdoctoral Research Associate, Thayer School of Engineering, 2022–2026.

education

Boston University, Ph.D., Earth & Environment, 2022.
Stony Brook University, M.S., 2017, and B.S., 2016, Applied Mathematics and Statistics.

grants and contracts

Co-Principal Investigator, “Development of urban flood forecasting services in the Caribbean and in Comoros”. PI: Humberto Vergara. World Meteorological Organization, \$1,201,553. 2026.
Co-Principal Investigator, “Contribute to the Integrated Coastal Modeling (ICoM) project, Subaward to Dartmouth College from Battelle”. PI: Klaus Keller. DOE-Prime, \$231,794. 2023–2025.

journal articles

Gourevitch, J. D., French, K., Kousky, C., Liao, Y. (, **Pollack, A.**, and Weill, J. A. 2026. “**Managing Unpriced Climate Risks in US Housing Markets.**” *Review of Environmental Economics and Policy* 0 0, pp. 000–000. DOI: [10.1086/741732](https://doi.org/10.1086/741732).

Hegde, P., **Pollack, A. B.**, Vaze, V., and Keller, K. 2026. “**Timing Managed Retreat for Robust Coastal Adaptation Strategies.**” *Earth's Future* 14 6, e2025EF007538. DOI: [10.1029/2025EF007538](https://doi.org/10.1029/2025EF007538).

Pollack, A. B. et al. 2026. “**Unlocking the benefits of transparent and reusable science for climate risk management.**” *Proceedings of the National Academy of Sciences* 123 3, e2422157123. DOI: [10.1073/pnas.2422157123](https://doi.org/10.1073/pnas.2422157123).

B., Sue Wing, I., and Nolte, C. 2022. “Aggregation bias and its drivers in large scale flood loss estimation: A Massachusetts case study.” <i>J. Flood Risk Manag.</i> 15 4. DOI: 10.1111/jfr3.12851. Castiglieo, J. R., Pollack, A., Cleveland, C. J., and Walsh, M. J. 2021. “Evaluating emissions reductions from zero waste strategies under dynamic conditions: A case study from Boston.” <i>Waste Manag.</i> 126, pp. 170–179. DOI: 10.1016/j.wasman.2021.02.026.
preprints & in review	Bhaduri, P., Pollack, A., Son, Y., Yoon, J., Daniel, B., and Srikrishnan, V. 2026. “Flood Risk is Driven by Complex Combinations of Human and Hazard Uncertainties.” Pollack, A. B. et al. 2025. “Unrefined national building inventories can mislead risk assessments and decisions.” Pollack, A., Wing, I. S., Pinter, N., and Nolte, C. 2022. “New Empirical Models for Flood Loss Prediction and Implications for the Coterminous United States.”
science translation & impact	Technical Advisory Group member, Massachusetts’ Executive Office of Energy and Environmental Affairs flood mapping (2024). Research covered by Houston Chronicle, Bloomberg, The Economist, and The Washington Post.
invited talks	20 invited talks (2020–2026), including University of Wisconsin-Madison, University of Iowa (Iowa Flood Center), Tulane University, and the Pennsylvania Emergency Management Agency flood disclosure workshop.
conferences	18 first-author presentations and posters (2020–2026), including AGU, EGU, DOE Earth and Environmental Systems Modeling, and the Society for Decision Making Under Deep Uncertainty.
awards	Outstanding Reviewer - Earth’s Future, American Geophysical Union, 2025. Open Scholarship Commitment Award for Reproducible Research, Dartmouth College, 2025.
mentoring & teaching	Mentoring: 6 undergraduate researchers and one capstone team (Dartmouth College, University of Iowa); Ph.D. committee member (University of Iowa). Teaching: Environmental Justice and SEES Foundations (University of Iowa, 2026); FAIR analyses module (Dartmouth College, 2024, 2025).
service	NSF ad hoc reviewer (2026); program committee, Society for Decision Making Under Deep Uncertainty (2026); AGU session co-convener (2024, 2025); Environmental Defense Fund climate-risk workshop participant (2026); reviewer for 17 journals including <i>Water Resources Research</i>, <i>Nature Communications</i>, and <i>Nature Climate Change</i>.
